The declaracion of theſe fygures folowyng.

It is to bee noted that where ye ſhall fynde any of theſe blacke tokens as foloweth h d q that the Moone then thorough the euil aſpectes of other planetes is hyndered, or other planetes of them ſelues, or of the Sunne.

But where theſe letters are found namely they ſignifie a good aſpecte of the Planetes.

A Signifieth Saturnus, good to delphe or dygge in the yearth, to ſowe ſeedis, to plant or ſet trees, to plowe the grounde, and to wene chyldren.

I Signifieth Jupiter, & is a very holſom daie towardes the ſtreghthing of mans nature, & furdereth digeſtiō.

C Signifieth Mars, and is a good day for to make all ſuche thinges as is wrought with fyre, as to ſet fyre to a kyll of brycke or ſuche lyke, or to make pouder y ſhall burne, or ſuche thinges as pertaineth to fyre, and is deſyrous to further & to ſtrength nature, good to cure woundes, eyes, and to cut one that is burſt, and to burne outwarde diſeaſes.

S Signifieth the Sunne, a good day for to augment the naturall heate, and to abate the ſuperfluous humors.

V Signifieth Venus, a very good day to bathe in, & good to take inwarde phiſike that paſſeth thorogh ſtrengthe, and fortifieth the genitall membres, and
